

Srijan Sil

Srijan Sil is currently working as the Country Risk Specialist in TCS, responsible for rating cross-regional sovereigns for one of the leading UK-based financial service providers. Previously, he served as Senior Credit Analyst in CRISIL Limited of S&P Global, engaged in driving key EMEA sovereign ratings and leading the business value addition projects across domains. He also worked as a Process Excellence Manager for Google, leveraging his operations expertise, as a certified Black Belt from the Indian Statistical Institute. With the blend of his expertise in quantitative and qualitative methods, he worked as one of the core founding members of Fields of View, one of the top Think Tanks in India. Additionally, he was engaged as an Econometric/Economic Modeler in the Indian Institute of Management Ahmedabad (IIM-A) and Global Data Research Centre to lead the modeling team. His notable publications include the UN's Inclusive Wealth Report and the Imaging Future - A generative scenario-based methodology to improve planning and decision-support system for policymakers, published and presented at Data for Policy Conference at the University College London. He feels proud as an alumnus of the Madras School of Economics and the University of Calcutta. He likes to spend his leisure strumming his guitar and uke and drawing landscape paintings.
